STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR ANNUAL INCOME TAX RETURN

The Management of **ABOITIZ FOUNDATION, INC.** is responsible for all information and representations contained in the Annual Income Tax Return for the year ended **December 31, 2021**. Management is likewise responsible for all information and representations contained in the financial statements accompanying the (Annual Income Tax Return or Annual Information Return) covering the same reporting period. Furthermore, the Management is responsible for all information and representations contained in all the other tax returns filed for the reporting period, including, but not limited, to the value added tax and/or percentage tax returns, withholding tax returns, documentary stamp tax returns, and any and all other tax returns.

In this regard, the Management affirms that the attached audited financial statements for the year ended **December 31, 2021** and the accompanying Annual Income Tax Return are in accordance with the books and records of **ABOITIZ FOUNDATION, INC.** complete and correct in all material respects. Management likewise affirms that:

(a) the Annual Income Tax Return has been prepared in accordance with the provisions of the National Internal Revenue Code, as amended, and pertinent tax regulations and other issuances of the Department of Finance and the Bureau of Internal Revenue;

(b) any disparity of figures in the submitted reports arising from the preparation of financial statements pursuant to financial accounting standards and the preparation of the income tax return pursuant to tax accounting rules has been reported as reconciling items and maintained in the company's books and records in accordance with the requirements of Revenue Regulations No. 8-2007 and other relevant issuances;

(c) the **ABOITIZ FOUNDATION, INC.** has filed all applicable tax returns, reports and statements required to be filed under Philippine tax laws for the reporting period, and all taxes and other impositions shown thereon to be due and payable have been paid for the reporting period, except those contested in good faith.

SABIN M. ABOITIZ
Chairman of the Board

MARIBETH L. MARASIGAN
President

MANUEL R. LOZANO
Treasurer

Signed this 14th day of January **2022**.

INDEPENDENT AUDITOR'S REPORT

The Members and the Board of Trustees
ABOITIZ FOUNDATION, INC.
(A Non-Stock, Non-Profit Organization)
32nd Street, Bonifacio Global City
Taguig City

Opinion

We have audited the accompanying financial statements of ABOITIZ FOUNDATION, INC. (the Foundation), which comprise the balance sheets as at December 31, 2021 and 2020, and the statements of operations, statements of other comprehensive income, statements of changes in fund balance and statements of cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as at December 31, 2021 and 2020, and of its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Foundation in accordance with the ethical requirements that are relevant to our audits of the financial statements in the Philippines, the *Code of Ethics for Professional Accountants in the Philippines*, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Foundation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair representation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on the Supplementary Tax Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary tax information in Note 25 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of management. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ABOITIZ FOUNDATION, INC.
(A Non-Stock, Non-Profit Organization)
NOTES TO FINANCIAL STATEMENTS
December 31, 2021
(Amounts Expressed in Whole Philippine Pesos)

1. CORPORATE INFORMATION

The Aboitiz Foundation, Inc., (the "Foundation") is a non-stock, non-profit foundation organized under Philippine laws in 1988 with corporate name ACO Foundation, Inc. Its articles of incorporation was amended changing its name to Aboitiz Group Foundation, Inc. and on May 7, 2008 to Aboitiz Foundation, Inc. The office of the Foundation is located at the 32nd Street, Bonifacio Global City, Taguig City.

The Foundation is primarily a socio-economic assistance body. It operates exclusively for charitable, social welfare, religious, scientific, cultural, non-formal educational, and youth and sports development purposes.

The projects and programs of the Foundation include among others construction of school buildings and classrooms in calamity stricken areas, developing of special service elementary schools and technical vocational high schools, support to government agencies and LGU's and environmental projects. It also operates the "Cleanergy Center" in Makban, Laguna which is an educational facility that showcase power generation, renewable energy, and different types of energy sources to increase the Filipino awareness on the importance of renewable energy and encourage Filipinos to adopt a more sustainable lifestyle. (see Notes 7 and 21)

2. BASIS OF PREPARATION, STATEMENT OF COMPLIANCE, AND SUMMARY OF SIGNIFICANT ACCOUNTING ENTRIES

Basis of Preparation.

The financial statements of the Foundation have been prepared under historical cost basis except for financial assets at FVTPL, financial assets at FVOCI, and trust funds which are measured at fair value. The financial statements are presented in Philippine peso, which is the Foundation's presentation and functional currency.

Statement of Compliance.

The financial statements have been prepared in accordance with the Philippine Financial Reporting Standards (PFRSs).

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the new and revised standards and Philippine Interpretations which were applied starting January 1, 2021. The Foundation has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The adoption of the following new and amended standards and interpretations did not have any significant impact on the Foundation's financial statements:

- Amendments to PFRS 9, PFRS 7, PFRS 4 and PFRS 16, *Interest Rate Benchmark Reform – Phase 2*

Pronouncements issued but not yet effective are listed below. The Foundation intends to adopt the following pronouncements when they become effective. Adoption of these pronouncements is not expected to have a significant impact on the Foundation's financial statements.

Effective beginning on or after January 1, 2022

- Amendments to PFRS 3, *Reference to the Conceptual Framework*
- Amendments to PAS 16, *Property, Plant and Equipment: Proceeds before Intended Use*
- Amendments to PAS 37, *Onerous Contracts – Costs of Fulfilling a Contract*
- *Annual Improvements to PFRSs* 2018-2020 Cycle
    - Amendments to PFRS 1, *First-time Adoption of PFRS* – Subsidiary as a first-time adopter
    - Amendments to PFRS 9, *Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities*
    - PAS 41, A*griculture – Taxation in fair value measurements*

Effective beginning on or after January 1, 2023

- PFRS 17, *Insurance Contracts*
- Amendments to PAS 1*: Classification of Liabilities as Current or Non-current*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- Deferral of Philippines Interpretation Committee (PIC) Q&A No. 2018-12 on PFRS 15, *Revenue from Contracts with Customers,* for Real Estate Companies

<u>Summary of Significant Accounting Policies</u>

a. Fair value measurement

Fair value is defined as the amount for which an asset could be exchanged, a liability could be settled, or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models as appropriate. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or

- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Foundation.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Foundation uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Foundation determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Foundation has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

b. Cash and cash equivalents.

Cash includes cash on hand and in banks. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

c. Financial assets and financial liabilities.

Initial recognition.
The Foundation recognizes a financial asset or a financial liability in the balance sheets when the Foundation becomes a party to the contractual provisions of the instrument. All regular way purchases and sales of financial assets are recognized on the trade date, which is the date that the Foundation commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace. Derivatives are recognized on a trade date basis.

Financial assets and financial liabilities are recognized initially at cost which is the fair value at inception. Transaction costs, if any, are included in the initial measurement of all financial assets and liabilities, except for financial instruments measured at fair value through profit or loss (FVTPL).

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Foundation recognizes the difference between the transaction price and fair value (a 'Day 1' difference) in the statement of operations unless it qualifies for recognition as some other type of asset. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the statement of operations when the inputs become observable or when the instrument is derecognized. For each transaction, the Foundation determines the appropriate method of recognizing the 'Day 1' difference amount.

Financial instruments are offset when there is a legally enforceable right to offset and intention to settle either on a net basis or to realize the asset and settle the liability simultaneously.

<u>Contractual cash flows assessment.</u>

For each financial asset, the Foundation assesses the contractual terms to identify whether the instrument is consistent with the concept of Solely Payments of Principal and Interest (SPPI).

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium/discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Foundation applies judgment and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

<u>Evaluation of business model in managing financial instruments.</u>

The Foundation determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Foundation's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed; and
- The expected frequency, value and timing of sales are also important aspects of the Foundation's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Foundation's original expectations, the Foundation does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Categories of Financial Assets and Financial Liabilities.

Financial assets and financial liabilities are further classified into the following categories: financial assets at amortized cost, financial assets at fair value through other comprehensive income (FVOCI), financial asset or financial liability at fair value through profit or loss (FVTPL), and other financial liabilities. The Foundation determines the classification at initial recognition and re-evaluates this designation at every reporting date, where appropriate.

Financial assets at amortized cost.

Financial assets at amortized cost are quoted or unquoted non-derivative financial assets that have contractual terms that are consistent with the concept of SSPI and which fit the business model of held-to-collect.

After initial measurement, these financial assets are carried at amortized cost less allowance for expected credit losses and impairment. Amortized cost is determined using the effective interest method, taking into account any discount or premium on acquisition and the fees that are an integral part of the effective interest rate. Gains and losses are recognized in the statement of income when the financial assets at amortized cost are derecognized or impaired, as well as through the amortization process. Financial assets at amortized cost are included in current assets if maturity is within twelve months from the reporting date. Otherwise, they are classified as non-current assets.

Included in this category are the Foundation's cash and cash equivalents, accounts receivable, trust funds, and accrued interest receivable.

Financial assets at FVOCI.

Financial assets at FVOCI includes quoted non-derivative financial assets that have contractual terms that are consistent with the concept of SSPI but do not fit the business model of held-to-collect. These are carried in the balance sheet at fair value. Interest income is recognized in profit or loss and fair value changes are recognized in other comprehensive income. Upon disposal, fair value changes are recycled to profit or loss.

Financial assets at FVOCI also includes equity instruments not held for trading and which the Foundation opted not to designate as financial assets at FVTPL. These are carried in the balance sheet at fair value. Dividend income is recognized in profit or loss and fair value changes are recognized in other comprehensive income. Upon disposal, there is no recycling of fair value changes.

The Foundation's financial assets at FVOCI amounted to P147,246,176 and P143,581,387 as of December 31, 2021 and 2020, respectively.

Financial asset or financial liability at FVTPL.

Financial assets at FVTPL are all financial assets whose contractual terms are not consistent with the concept of SPPI, with the exception of equity instruments not held for trading which the Foundation opts to designate as financial assets at FVOCI without recycling. Financial liabilities at FVTPL are liabilities acquired for the purpose of selling and repurchasing in the near term or are those designated by the Foundation as such.

Financial assets and liabilities at FVTPL are recorded in the balance sheet at fair value. Subsequent changes in fair value are recognized in profit or loss. Interest earned or incurred is recorded as interest income or expense, respectively, while dividend income is recorded as other income when the right to receive payment has been established.

The Foundation's financial assets at FVTPL amounted to P282,712,197 and P258,323,852 as of December 31, 2021 and 2020, respectively.

Other financial liabilities.

Financial liabilities not designated as FVTPL are measured at cost or amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any discount or premium on the issue and the fees that are an integral part of the effective interest rate. The amortization is included in interest expense in the statement of income.

Included in this category is the Foundation's accounts payable and accrued expenses and deferred credits.

Reclassifications of Financial Instruments.

The Foundation reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. Reclassifications shall be applied prospectively by the Foundation and any previously recognized gains, losses or interest shall not be restated.

The Foundation does not reclassify its financial assets when:

- A financial asset that was previously a designated and effective hedging instrument in a cash flow hedge or net investment hedge no longer qualifies as such;

- A financial asset becomes a designated and effective hedging instrument in a cash flow hedge or net investment hedge; and,

- There is a change in measurement on credit exposures measured at fair value through profit or loss.

The Foundation does not reclassify its financial liabilities.

Impairment of financial assets at amortized cost.

The Foundation recognizes expected credit losses (ECL) for the following financial assets that are not measured at FVTPL:

- Debt instruments that are measured at amortized cost and FVOCI;
- Loan commitments; and,
- Financial guarantee contracts

No ECL is recognized on equity investments.

ECLs are measured in a way that reflects the following:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and,
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

Financial assets migrate through the following three stages based on the change in credit quality since initial recognition:

- Stage 1: 12-month ECL. For credit exposures where there have not been significant increases in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of lifetime ECLs that represent the ECLs that result from default events that are possible within the 12-months after the reporting date are recognized.

- Stage 2: Lifetime ECL - not credit-impaired. For credit exposures where there have been significant increases in credit risk since initial recognition on an individual or collective basis but are not credit-impaired, lifetime ECLs representing the ECLs that result from all possible default events over the expected life of the financial asset are recognized.

- Stage 3: Lifetime ECL - credit-impaired. Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of those financial assets have occurred. For these credit exposures, lifetime ECLs are recognized and interest revenue is calculated by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset.

Loss allowances are recognized based on 12-month ECL for debt investment securities that are assessed to have low credit risk at the reporting date. A financial asset is considered to have low credit risk if:

- the financial instrument has a low risk of default;

- the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; or,
- adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Foundation considers a debt investment security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade', or when the exposure is less than 30 days past due.

Determination of the Stage for Impairment. At each reporting date, the Foundation assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Foundation considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis.

An exposure will migrate through the ECL stages as asset quality deteriorates. If, in a subsequent period, asset quality improves and also reverses any previously assessed significant increase in credit risk since origination, then the loss allowance measurement reverts from lifetime ECL to 12-month ECL.

<u>Derecognition of Financial Assets and Liabilities</u>

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized where:

- the rights to receive cash flows from the asset have expired;

- the Foundation retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or

- the Foundation has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

- has an obligation to remit any cash flows it collects on behalf of the eventual recipients without material delay.

Where the Foundation has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Foundation's continuing involvement in the asset.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the profit or loss.

If, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized through results of operations, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

d. Prepaid expenses.

Prepaid expenses are carried at the amounts paid and are amortized as they are used in operations or as they expire with the passage of time.

e. Property and equipment.

Property and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses.

Cost of property and equipment comprises its net purchase price and directly attributable costs of bringing the asset to working condition for its intended use.

Subsequent expenditures related to property and equipment for maintenance or repairs are expensed. Improvements are capitalized and depreciated over expected useful life.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Annual depreciation rates are as follows:

	Annual rates (%)
Building	4.00%
Computer equipment	33.33%
Transportation equipment	20.00%
Furniture and fixtures	20.00%
Leasehold improvements	10.00%
Right of use asset	20.00%

The useful lives of the assets and depreciation method used are reviewed periodically for any significant change in utility of the assets and in the expected pattern of economic benefits to ensure that current and future depreciation charges are adjusted accordingly.

Gain or loss on disposal or retirement of property and equipment are generally reflected in the statement of operations.

At each reporting date, property and equipment are assessed for any indication of impairment in value based on internal and external sources. If any indication exists, recoverable amount of the asset is estimated and impairment is recognized in the statement of operations.

f. Deferred credits.

Funds received that are restricted by the donors for specific purposes are recognized as deferred credits upon receipt. These are deemed donated and reported as revenue only upon the occurrence of the events specified by donors.

g. Fund balance.

Fund balance includes the following:

- Revaluation reserve includes the current and prior period unrealized gains and losses due to revaluation of financial assets at FVOCI reported as other comprehensive income in the statement of other comprehensive income.

- Cumulative effect of remeasurements of defined benefit obligation, which consists of actuarial gains and losses on the defined benefit obligation arising from differences between the previous actuarial assumptions and what has actually occurred and from the effects of changes in actuarial valuations, the return on plan assets and changes in the effect of the asset ceiling.

- Cumulative excess of revenues over expenses includes the current and prior period results reported in the statement of operations.

- Prior period adjustments from restrospective application of new accounting standards when required.

h. Revenue and expense recognition.

Donations are recognized when no significant uncertainty to its collection exists.

Grants and sub-grants are recognized as revenue over periods to match them with the related costs which they are intended to compensate. Grants related to depreciable assets are recognized as revenue over the periods and in proportion in which depreciation on those assets is charged.

Interest income is recognized as it accrues using the effective interest method.

Dividends are recognized as income when the right to receive payment is established.

Other revenues are recognized when earned.

Expenses are recognized when incurred.

i. Leases.

The Foundation assesses whether a contract is, or contains, a lease at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. For leases, where the Foundation acts as the lessee, the Foundation recognizes a right-of-use asset and a lease liability at the commencement date of the lease. The right-of-use asset is initially measured at cost, which is comprised of the initial amount of the lease liability with certain adjustments, and subsequently depreciated using the straight line method, with depreciation expense recognized in profit or loss. The lease liability is initially measured at the present value of lease payments over the term of the lease using a discount rate that is based on the prevailing borrowing rate. The discount rate is specific to each lease and is determined by various factors, such as the lease term and currency. The lease term includes the non-cancellable period and the optional period where it is reasonably certain we will exercise or not exercise an extension or termination option, considering various factors that create an economic incentive to do so. Subsequently, the lease liability is measured at amortized cost using the effective interest method, with interest charged to interest expense in profit or loss. Lease liabilities and right-of-use assets are measured upon lease modifications.

Leases of low value assets or with relatively short terms are expensed when incurred.

j. Retirement benefits.

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the statement of income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in the statement of income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to statement of income in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund. Plan assets are not available to the creditors of the Foundation, nor can they be paid directly to the Foundation. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

k. Related party transactions and relationship.

Related party relationships exists when one party has the ability to control, directly or indirectly through one or more intermediaries, the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationships also exist between and/ or among entities which are under common control with the reporting enterprises, or between and/ or among the reporting enterprises and its key management personnel, directors or its stockholders. Transactions between related parties are accounted for based on negotiated prices and terms.

l. Provisions.

Provisions are recognized when the Foundation has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the statement of operations.

m. Contingencies.

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

n. Events after reporting date.

Post year end events that provided additional information about the Foundation's position at reporting date (adjusting events) are reflected in the financial statements. Post year end events that are not adjusting events are disclosed when material.

Judgments and Accounting Estimates.

In the process of applying the accounting policies of the Foundation, management has made following judgments and estimates which have the most significant effect on the amounts recognized in the financial statements:

Judgments.

Provisions and contingencies.

The Foundation applies judgment on when to recognize provisions or contingent liabilities. Provisions are recognized when the Foundation has a present obligation (legal or constructive) as a result of a past event, it is possible that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Estimates and Assumptions.

Allowance for expected credit losses.

ECLs are derived from unbiased and probability-weighted estimates of expected loss, and are measured as follows:

- *Financial assets that are not credit-impaired at the reporting date:* as the present value of all cash shortfalls over the expected life of the financial asset discounted by the effective interest rate. The cash shortfall is the difference between the cash flows due to the Foundation in accordance with the contract and the cash flows that the Foundation expects to receive.
- *Financial assets that are credit-impaired at the reporting date:* as the difference between the gross carrying amount and the present value of estimated future cash flows discounted by the effective interest rate.
- *Undrawn loan commitments:* as the present value of the difference between the contractual cash flows that are due to the Foundation if the commitment is drawn down and the cash flows that the Foundation expects to receive.
- *Financial guarantee contracts:* as the expected payments to reimburse the holder less any amounts that the Foundation expects to recover.

The Foundation leverages existing risk management indicators (e.g. internal credit risk classification and restructuring triggers), credit risk rating changes and reasonable and supportable information which allows the Foundation to identify whether the credit risk of financial assets has significantly increased.

The Foundation has not provided an allowance for expected credit losses on its receivables. Carrying value of receivables amounted to P5,388,908 and P7,583,021 as of December 31, 2021 and 2020, respectively.

Useful lives of property and equipment.

The Foundation estimates the useful lives of depreciable assets based on the period over which the assets are expected to be available for use. The estimated useful lives of these assets are reviewed annually and are updated if expectations differ from previous estimates due to physical wear and tear and technical or commercial obsolescence. It is probable that the results of future operations could be materially affected by changes in the estimates due to changes in aforementioned factors. Reduction in estimated useful lives of depreciable assets would increase depreciation expense and decrease non-current assets.

Carrying value of depreciable assets amounted to P43,675,324 and P51,210,711 as of December 31, 2021 and 2020, respectively.

Impairment of non-financial assets.

The Foundation assesses the impairment of non-financial assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The impairment review requires an estimation of the present value of the expected future cash flows from continued use of the assets and selection of an appropriate discount rate that can materially affect the financial statements.

Carrying value of non-financial assets as of reporting date were as follows:

	December 31 2021	December 31 2020
Property and equipment – net	P55,192,324	P62,727,711
Other non-current assets	9,553,473	14,078,043

Retirement benefits.

The costs of defined benefit pension plans, as well as the present value of the pension obligation, are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Accrued retirement payable as of December 31, 2021 and 2020 amounted to P482,893 and P1,041,681, respectively.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific country and is modified accordingly with estimates of mortality improvements. Future salary increases and pension increases are based on expected future inflation rates for the specific country.

Further details about the assumptions used are provided in Note 16.

Fair values of financial instruments.

PFRSs requires that certain assets and liabilities be carried at fair value which requires the use of accounting judgment and estimates. While significant components of fair value measurement are determined using verifiable objective evidence, the timing and amount of changes in fair value would differ with the valuation methodology used. Any change in fair value of these financial assets and liabilities would directly affect net profit or loss or equity. As of December 31, 2021 and 2020, fair value of financial assets amounted to P972,201,483 and P882,872,668, respectively and fair value of financial liabilities amounted to P303,044,719 and P308,862,574, respectively. (see Note 19)

3. CASH AND CASH EQUIVALENTS

This account consists of:

	December 31 2021	December 31 2020
Petty cash	P30,000	P37,132
Cash in bank	44,709,437	31,632,194
Cash equivalents	208,246,533	159,021,703
	P252,985,970	P190,691,029

Cash equivalents with terms of 30 to 120 days earn interest ranging from 0.75% to 1.30% in 2021 and 0.75% to 1.55% in 2020, respectively. Interest income from cash in bank and cash equivalents amounted to P3,041,361 and P4,617,842 in 2021 and 2020, respectively.

4. ACCOUNTS RECEIVABLE

This consists substantially of advances to corporate social responsibility officers for the implementation of the projects of the Foundation which are subject to liquidation.

5. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (FVTPL)

These are investments in traded equity instruments and unit investment trust funds (UITF) as follows:

	December 31 2021	December 31 2020
Cost	P114,026,035	P100,135,396
Cumulative changes in fair value	168,686,162	158,188,456
	P282,712,197	P258,323,852

Movements in cumulative changes in fair value of financial assets at FVTPL are as follows:

	2021	2020
Balance, January 1	P158,188,456	P183,511,142
Fair value change during the year (Note 13)	10,497,706	(25,322,686)
Balance, December 31	P168,686,162	P158,188,456

Income earned on financial assets at FVTPL, other than fair value changes, are as follows:

	2021	2020
Realized gain on withdrawal of financial assets at FVTPL (Note 13)	P13,890,639	P7,098,127
Dividend income	3,691,001	5,221,430
	P17,581,640	P12,319,557

6. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME (FVOCI)

This represents portfolio investments managed by BDO trust as follows:

	December 31 2021	December 31 2020
Cost	P147,254,844	P143,614,160
Allowance for expected credit losses	(11,968)	(67,844)
Cumulative changes in fair value	3,300	35,071
Balance	P147,246,176	P143,581,387

Movements in allowance for expected credit losses are as follows:

	2021	2020
Balance, January 1	P67,844	P54,252
Provision for (reversal of) expected credit losses (Note 13)	(55,876)	13,592
Balance, December 31	P11,968	P67,844

Movements in cumulative changes in fair value of financial assets at FVOCI in fund balance are as follows:

	2021	2020
Balance, January 1	P35,071	P78,069
Fair value change during the year	(31,771)	(42,998)
Balance, December 31	P3,300	P35,071

Interest income earned on financial assets at FVOCI received during the year amounted to P3,597,955 and P5,109,155 in 2021 and 2020, respectively.

7. PROPERTY AND EQUIPMENT

The classes of property and equipment are as follows:

December 31, 2021

	Land	Building	Computer equipment	Transportation equipment	Furniture and fixtures	Leasehold improvements	Right of use (ROU) assets (Note 21)	Total
Cost								
Balance, beginning	P11,517,000	P58,535,112	P5,700,239	P4,795,460	P1,294,473	P6,960,165	P6,083,802	P94,886,251
Additions	—	—	107,190	—	—	—	—	107,190
Retirement	—	—	(4,608,675)	(2,023,460)	(1,294,473)	(6,160,165)	—	(14,086,773)
Balance, end	11,517,000	58,535,112	1,198,754	2,772,000	—	800,000	6,083,802	80,906,668
Accumulated depreciation								
Balance, beginning	—	16,389,830	5,447,006	3,037,660	1,191,163	3,337,951	2,754,930	32,158,540
Depreciation	—	2,341,404	212,277	554,400	64,212	350,296	1,377,465	4,900,054

Balance, end	—	16,389,830	5,447,006	3,037,660	1,191,163	3,337,951	2,754,930	32,158,540
Net book value	P11,517,000	P42,145,282	P253,233	P1,757,800	P103,310	P3,622,214	P3,328,872	P62,727,711

Building represents the “Cleanergy Center”, an educational facility in Makban, Laguna. (see Notes 1 and 21)

Depreciation charged to operations amounted to P4,900,052 and P5,436,008 in 2021 and 2020, respectively. (see Note 14)

Certain property and equipment were retired and resulted to losses amounting to P2,742,524 and P38,708 in 2021 and 2020, respectively. (see Note 13)

Proceeds from retirement of property and equipment amounted to P94,397 in 2020.

The Foundation has no idle property and equipment as of reporting date.

8. TRUST FUNDS

These are funds entrusted/conditionally donated to the Foundation to ensure continuous support to certain charitable programs of the Foundation. In accordance with the terms and conditions of the trust funds, the funds are disbursed only for the intended purpose for which each trust fund was created.

Trust fund principal are credited to deferred credits upon receipt and are recognized in operations by the Foundation upon occurrence of a specified event.

The following is summary of transactions for deferred credits during the year.

	2021	2020
Deferred grant, beginning of year	P282,659,715	P253,371,497
Deferred grants received	11,126,837	72,718,130
Grants earnings		
Interest income	2,004,765	665,657
Dividend income	2,909,317	6,061,569
Grant expenses	(381,319)	(1,200)
Donations made	(20,089,628)	(29,038,558)
Change in fair values of trust fund investments	5,638,545	(21,117,380)
Deferred grant, end of year	P283,868,232	P282,659,715

Trust funds are invested in the following:

	December 31 2021	December 31 2020
Cash in banks	P6,658,309	P8,803,944
Short-term investments	149,973,923	152,258,316
Financial assets at fair value	127,236,000	121,597,455
	P283,868,232	P282,659,715

9. OTHER NON-CURRENT ASSETS

This account consists of:

	December 31 2021	December 31 2020
Prepaid rent (Note 21)	P434,803	P469,605
Refundable deposit and others	146,572	2,372,685
Income tax refundable (Note 15)	5,600	—
Deferred charges – MCIT (Note 15)	5,600	—
Computer software - net	—	437,727
Accrued interest receivable	—	33,664
Materials and supplies	8,960,898	10,798,026
	P9,553,473	P14,111,707

Refundable deposits are refundable to the Foundation upon termination of contract with utility companies and a lessor.

Computer software is amortized over a period of three years. Amortization on computer software amounted to P437,727 and P1,017,588 in 2021 and 2020, respectively. (see Note 14)

Materials and supplies are the non-cash donations received by the Foundation but not yet distributed to the beneficiaries.

10. ACCOUNTS PAYABLE AND ACCRUED EXPENSES

This account consists of:

	December 31 2021	December 31 2020
Accounts payable	P14,083,309	P21,792,505
Lease liability (Note 21)	2,256,315	3,670,059
Other payables	2,836,863	740,295
	19,176,487	26,202,859
Non-current portion of lease liability	(612,432)	(2,104,457)
	P18,564,055	P24,098,402

Accounts payable consists mainly of suppliers' credits and accruals.

Other payables include payables to government entities for payroll related deductions.

11. DONATIONS

This account consists of donations from private companies, individuals and LGU counterparts.

12. PROGRAM COSTS AND EXPENSES

This account represents the cost of various projects as follows:

	2021	2020
Special projects	P160,045,760	P234,864,695
Education	32,962,659	75,138,328
Enterprise development	19,015,432	10,031,506
Conservation, research and development	8,924,005	21,026,125
Health, wellness and childcare	2,787,996	5,787,589
	P223,735,852	P346,848,243

Special projects

The Foundation's initiatives for special projects are focused on building the resilience of the communities as it trains Filipinos from barangays and schools nationwide on disaster risk reduction and management. These community-based disaster risk reduction and management (CBDRRM) training-workshops help community members and disaster resilience coordinators identify local risks and hazards and develop their action plans to mitigate risks.

In the last two years, the Foundation is focused in providing immediate support to the COVID-19 response, especially in providing the frontliners with personal protective equipment and families needing assistance with relief goods. The Foundation also made a P100 million donation through the Philippine Disaster Resilience Foundation's Project Ugnayan, which aims to provide assistance by distributing grocery vouchers. Total funds provided by the Foundation alone for COVID-19 response reached P218 million since the onset of the pandemic. Aside from COVID-19, natural disasters have also impacted the Philippines.

Special projects costs and expenses in 2021 and 2020 relate mainly to donations made by the Foundation in assisting communities affected by the Coronavirus Disease 2019 (Covid-19) pandemic and Typhoon Odette.

Education

Since the inception of the Foundation in 1988, it has been investing heavily in projects designed to provide access to quality education in the Philippines.

Working with various schools, training institutions, the Department of Education, and various organizations, the Foundation executes strategic and purposive education programs to ensure that the Foundation produces deserving graduates and guide them to become productive members of the workforce.

To contribute to the United Nations Sustainable Development Goals for quality education, the Foundation provides quality technical, vocational, and tertiary education, and offer financial assistance and scholarships. The Foundation also continuously work with its partners to build and improve learning facilities, provide advanced training programs for assisted teachers, and conduct in-school feeding programs.

The Foundation believes that education is an essential sector that must continue amidst the pandemic. The disruption of the pandemic on access to education has encouraged the innovation of digital solutions, leading to the development of online platforms and activities to keep the Foundation's scholars engaged and informed. These innovations enhanced the existing education programs, and more importantly, ensured continued access to education in the time of COVID-19.

Enterprise development

Enterprise development approach is focused on providing end-to-end and cost-efficient interventions for community-based enterprises. As part of the Foundation's One Coop One Product (OCOP) strategy, its projects ensure that relevant support is provided from production to marketing, by orchestrating support from various actors. These include leveraging resources for the capacity building, infrastructure, financing, and market linkage needs of community enterprises. The Foundation also worked with Environment team in rolling out Business Continuity Planning sessions that aim to manage the vulnerabilities of its partner cooperatives and promote enterprise sustainability.

The Foundation aims to support its partner cooperatives and MSMEs nationwide to restart their operation and recover from the economic loss and failure brought about by the pandemic. Supporting cooperatives and MSMEs is vital for preserving jobs and productivity. This also includes helping them take advantage of the use of digital tools to continue operating their businesses and providing services to cooperative members.

Conservation, research and development

This program ensures that projects undertaken directly or through partnerships will maintain and enhance the benefits of ecosystem services, build resilient communities, and promote an environment friendly transport system.

The Foundation has transcended its target to plant 9-million trees by 2020. As of December 31, 2020, there were 11.73-million trees planted, in partnership with the tree growing project of Ramon Aboitiz Foundation, Inc., the Philippine Business for Social Progress, and the Carbon Sink Management Program of Therma South, Inc. and Therma Visayas, Inc.

The Foundation also maintains the Aboitiz Cleanergy Park, an eight-hectare park, which showcases a mangrove reforestation site, nursery, and botanical garden for the propagation of native tree species and home to hundred species of birds.

The Foundation also collaborated with the Department of Environment and Natural Resources, even with the onset of the pandemic, on its continued rehabilitation efforts for the Balabag Wetland Park in Boracay, Aklan

Health, wellness and childcare

The Foundation's healthcare projects include medical, optical and dental missions and circumcision drives, and the construction of water systems, health centers, and day care centers in areas where they are most needed.

13. OTHER INCOME (LOSSES)

This account consists of:

	2021	2020
Realized gain on withdrawal of financial assets at FVTPL (Note 5)	P13,890,639	P7,098,127
Fair value changes of financial assets at FVTPL (Note 5)	10,497,706	(25,322,686)
Unrealized foreign exchange gain (loss)	64,295	(335,732)
Reversal of (provision for) expected credit losses (Note 6)	55,875	(13,592)
Realized foreign exchange loss	(238,868)	(15,277)
Loss on retirement of property and equipment (Note 7)	(2,742,524)	(38,708)
	P21,527,123	(P18,627,868)

14. ADMINISTRATIVE EXPENSE

This accounts consists of:

	2021	2020
Salaries and benefits	P26,127,612	P27,589,400
Depreciation (Note 7)	4,900,052	5,436,008
Contracted services	3,665,697	5,366,727
Medical and hospitalization	1,101,640	542,802
Professional fees	1,025,103	895,918
Communications, light and water	1,022,396	1,494,910
Transportation and travel	782,906	630,295
Rent (Note 21)	499,548	602,791
Amortization (Note 9)	437,727	1,017,588
Repairs and maintenance	245,095	8,497
Interest expense on lease liability (Note 21)	151,858	218,666
Training and seminars	112,823	122,554
Supplies and materials	26,164	76,501
Freight and handling	16,917	43,743
Taxes and licenses	12,236	17,906
Project expenses	—	95,300
Fuel and lubricants	—	64,306
Miscellaneous	1,596,506	1,233,507
	P41,724,280	P45,457,419

Salaries and benefits consists of:

	2021	2020
Salaries and wages	P18,516,708	P18,882,420
Employee benefits	6,342,572	6,047,337
Retirement benefits (Note 16)	897,522	2,253,570
SSS, PHIC, and Pag-ibig contributions	370,810	406,073
	P26,127,612	P27,589,400

15. INCOME TAX

The Foundation is a non-stock, non-profit foundation organized and operated exclusively to provide financial aid and technical aid to pre-qualified deserving service agencies or communities. It is exempt from income tax pursuant to Section 30 of the Tax Reform Act of 1997 (R.A. 8424). However, income derived from its properties, real or personal, or from any of its activities conducted for profit regardless of the disposition made of such income, is subject to tax. On December 13, 2018, the Philippine Council for NGO Certification (PCNC) issued a certificate of accreditation to the Foundation after impartial scrutiny and verification with the PCNC standards of good governance, management and accountability. The PCNC certification is valid for a period of five (5) years from the date of issuance. Furthermore, the Bureau of Internal revenue (BIR) issued on December 10, 2019, a tax exemption certificate to the Foundation valid for three (3) years from the date of issuance.

On March 26, 2021, President Rodrigo R. Duterte signed into law Republic Act No. 11534, Corporate Recovery and Tax Incentives for Enterprises Act (CREATE). The provisions of the law that are relevant to the Foundation are as follows:

- Reduction of the corporate income tax (CIT) from 30% to 20% for domestic corporations with total assets not exceeding P100 million, excluding land, and total net taxable income of not more than P5 million and to 25% for all other domestic and resident foreign corporations starting July 1, 2020 and to 25% for non-resident foreign corporations starting January 1, 2021.
- Lower the minimum corporate income tax (MCIT) from 2% to 1% effective July 1, 2020 until June 30, 2023.

Income tax expense amounting to P645,187 and P873,086 in 2021 and 2020, respectively, consists of income tax currently due on net receipts subject to normal income tax at rate of 25% in 2021 and 30% in 2020 and final income tax on interest at rates of 20% and 15%.

Minimum corporate income tax (MCIT) included in other non-current assets (Note 9) and computed at one percent tax on gross income, is creditable against normal income tax as follows:

Taxable year	Normal income tax	MCIT	Excess MCIT over normal income tax	Excess MCIT applied in previous years	Excess MCIT applied currently	Balance of MCIT allowable as tax credit for succeeding years
2021	—	P5,600	P5,600	—	—	P5,600

Income tax refundable, included in other non-current assets and amounting to P5,600 and nil as of December 31, 2021 and 2020, respectively, represents the excess of income tax credits over current tax due which can be applied against future income taxes. (see Note 9)

Income tax payable amounting to nil and P206,393 as of December 31, 2021 and 2020, respectively, represents the current income tax due net of tax credits.

16. RETIREMENT BENEFITS

Under the existing regulatory framework, Republic Act 7641, otherwise known as The Retirement Pay Law, requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity. It further states that the employees' retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

The Foundation has a funded, noncontributory, defined benefit pension plan ("Plan") covering all regular and full-time employees and requiring contributions to be made to separately administered fund. This retirement benefit fund ("Fund") is in the form of a trust being maintained and managed by AEV, under the supervision of the Board of Trustees (BOT) of the Plan. The BOT is responsible for the investment of the Fund assets. Taking into account the Plans' objectives, benefit obligations and risk capacity, the BOT periodically defines the investment strategy in the form of a long-term target structure.

The following tables summarize the components of net benefit expense recognized in the Foundation's statements of operations and other comprehensive income and the funded status and amounts recognized in the Foundation's balance sheets for the Plan.

	2021	2020
Retirement expense recognized in the statement of operations:		
Current service cost	P858,043	P1,811,157
Past service cost	—	154,463
Net interest cost	39,479	287,950
Retirement benefits (Note 14)	P897,522	P2,253,570
Remeasurement effects recognized in other comprehensive income		
Actuarial gain on defined benefit obligation	P1,257,522	P8,824,541
Actuarial loss on plan assets	(408,003)	(2,799,846)
	P849,519	P6,024,695

Accrued retirement payable

	December 31 2021	December 31 2020
Present value of obligation	P7,384,125	P7,499,379
Fair value of plan assets	(6,901,232)	(6,457,698)
	P482,893	P1,041,681

Changes in the present value of the defined benefit obligation are as follows:

	2021	2020
Balance at January 1	P7,499,379	P36,599,702
Net benefit costs in statement of operations		
Current service costs	858,042	1,811,157
Past service costs	—	154,463
Interest cost	284,226	1,819,005
	1,142,268	3,784,625
Transferred obligation	—	(23,724,327)
Retirement benefits paid from operating funds	—	(336,080)
Remeasurements in other comprehensive income		
Actuarial gain due to experience adjustments	(49,647)	(9,235,238)
Actuarial gain due to changes in demographic assumptions	—	(537,163)
Actuarial loss (gain) due to changes in financial assumptions	(1,207,875)	947,860
	(1,257,522)	(8,824,541)
Balance at December 31	P7,384,125	P7,499,379

Changes in the fair value of plan assets are as follows:

	2021	2020
Balance, January 1	P6,457,698	P30,805,935
Interest income included in net interest cost	244,747	1,531,055
Loss on return on plan assets	(408,002)	(2,799,846)
Actual contributions	606,789	644,881
Transferred obligation	—	(23,724,327)
Balance, December 31	P6,901,232	P6,457,698

The fair value of plan assets by each class are as follows:

	December 31 2021	December 31 2020
Financial assets at amortized cost	P5,786,325	P10,207,655
Financial assets at FVTPL	12,695,200	13,903,575
Financial assets at FVOCI	6,645,590	6,070,795
	25,127,115	30,182,025
Less: Accounts payable and accrued expenses	(18,225,883)	(23,724,327)
Fair value of plan assets	P6,901,232	P6,457,698

Movements in cumulative actuarial loss were as follows:

	2021	2020
Cumulative actuarial loss, beginning	P1,906,055	P7,930,750
Actuarial gain recognized in other comprehensive income	(849,519)	(6,024,695)
Cumulative actuarial loss, end	P1,056,536	P1,906,055

The Foundation's defined benefit pension plan is funded by the Foundation. The Foundation expects to make a contribution to the defined benefit pension plan in 2022.

The plan assets have diverse investments and do not have any concentration risk. All equity instruments held have quoted prices in active market. The remaining plan assets do not have quoted market prices in active market.

The principal assumptions used as of reporting date in determining retirement benefits for the Foundation's Plan are shown below:

	2021	2020
Discount rate	5.21%	3.79%
Investment yield	6.00%	6.00%
Salary increase rate	6.00%	6.00%
Average expected future service years	10 years	10 years

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the accrued retirement payable as of December 31, 2021, assuming all other assumptions were held constant:

	Effect on 2021 accrued retirement payable
Changes in discount rate	
1% increase	(P715,434)
1% decrease	825,143
Changes in salary rate increase	
1% increase	865,237
1% decrease	(762,326)

17. RELATED PARTY DISCLOSURES

The Foundation is run by its' members and trustees.

The Foundation has transaction with a related party as follows:

Related party	Relationship
Aboitiz Equity Ventures, Inc. (AEV)	Affiliate

The Foundation's statements of operations include technical fees arising from transaction with AEV amounting to P3,855,567 and P5,099,048 in 2021 and 2020, respectively.

The members of the Board of Trustees do not receive compensation for services rendered to the Foundation.

18. CAPITAL MANAGEMENT

The primary objective of the Foundation in managing capital is to ensure the Foundation's ability to continue as a going concern so that it can continue to support its projects and programs and thus achieve the purpose for which it was created.

The Foundation manages its capital structure and makes adjustments to it in the light of changes in economic condition. To maintain or adjust its fund balance or reduce its debt, if any, the Foundation may assess its members or sell its assets. No changes were made in the objective, policy or processes in 2021 and 2020.

The Foundation considers its fund balance as capital. The Foundation's fund balance amounted to P733,419,668 and P649,567,774 as of December 31, 2021 and 2020, respectively.

No gearing ratios were computed as of the end of 2021 and 2020 since the Foundation was in a net cash position.

19. FINANCIAL INSTRUMENTS

The financial instruments of the Foundation comprise principally of cash and cash equivalents, receivables, financial assets at FVTPL, financial assets at FVOCI, trust funds, accrued interest receivable, accounts payable and accrued expenses and deferred credits.

	December 31, 2021		December 31, 2020	
Financial assets	Carrying value	Fair value	Carrying value	Fair value
Financial assets at amortized cost				
Cash and cash equivalents	P252,985,970	P252,985,970	P190,691,029	P190,691,029
Accounts receivable	5,388,908	5,388,908	7,583,021	7,583,021
Other non-current assets	—	—	33,664	33,664
Financial assets at FVTPL	282,712,197	282,712,197	258,323,852	258,323,852
Financial assets at FVOCI	147,246,176	147,246,176	143,581,387	143,581,387
Trust funds	283,868,232	283,868,232	282,659,715	282,659,715
	P972,201,483	P972,201,483	P882,872,668	P882,872,668

	December 31, 2021		December 31, 2020	
Financial liabilities	Carrying value	Fair value	Carrying value	Fair value
Other financial liabilities				
Accounts payable and accrued expenses	P19,176,487	P19,176,487	P26,202,859	P26,202,859
Deferred credits	283,868,232	283,868,232	282,659,715	282,659,715
	P303,044,719	P303,044,719	P308,862,574	P308,862,574

The fair values of all of the Foundation's financial instruments are the same as their carrying values. The carrying amounts of the majority of these instruments approximate fair value due to their relatively short term maturity.

As of reporting date, the Foundation's financial assets at FVTPL, financial assets at FVOCI and trust funds are the only financial instruments that are periodically re-measured at fair value based on quoted market prices.

December 31, 2021

	Total	Level 1	Level 2	Level 3
Financial assets at FVTPL	P282,712,197	P282,712,197	—	—
Financial assets at FVOCI	147,246,176	147,246,176	—	—
Trust funds	127,236,000	127,236,000	—	—
	P557,194,373	P557,194,373	—	—

December 31, 2020

	Total	Level 1	Level 2	Level 3
Financial assets at FVTPL	P258,323,852	P258,323,852	—	—
Financial assets at FVOCI	143,581,387	143,581,387	—	—
Trust funds	121,597,455	121,597,455	—	—
	P523,502,694	P523,502,694	—	—

During the reporting period ended December 31, 2021 and 2020, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

20. FINANCIAL RISKS MANAGEMENT POLICIES AND OBJECTIVES

The main risks arising from the Foundation's financial instruments are credit risk, equity price risk and liquidity risk. The Board of Trustees has reviewed and set up policies to manage these risks. It continuously upgrades these policies and procedures to ensure that the management of risk exposures is both progressive and reflective of the Foundation's financial outlook.

Credit risk.

Credit risk is the risk that one party of a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Credit risks arising from debtors are mitigated by subjecting debtors to credit verification and setting of credit limits. Furthermore, the Foundation monitors receivables continuously.

Credit risk from other financial assets, which comprise mainly of cash and cash equivalents, is mitigated by maintaining depository accounts and cash investments with financial institutions of high credit rating. Furthermore, the Board of Trustees sets limits on deposits that could be placed with a single institution.

The Foundation has no significant concentration risk to a counterparty or company of counterparties

As of December 31, 2021 and 2020, the Foundation's financial assets are neither past due nor impaired and the credit quality is considered to be of high grade as these are expected to be collectible without incurring any credit losses.

Equity price risk.

Equity price risk is the risk that the fair value of traded equity instruments decreases as the result of the changes in the levels of equity indices and the value of the individual stocks.

The Foundation is exposed to equity price risk on its investments carried at fair value classified under financial assets at FVTPL and financial assets at FVOCI. It manages this risk by constantly monitoring the changes of the market price of its investments.

The volatility rates of the fair value of the Foundation's investments held at fair value and their impact on the fund balance as of reporting date were as follows:

	Volatility rate		Effect on fund balance	
	Increase	Decrease	Increase	Decrease
Equity securities listed in the Philippines				
2021	10%	5%	P42,995,837	(P21,497,919)
2020	10%	5%	40,190,524	(20,095,262)

Liquidity risk.

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

To manage this risk, the Foundation regularly monitors its projected and actual cash flows information. Any excess cash is invested in short-term placements.

The following table presents the Foundation's assets and liabilities by contractual maturities and settlement dates as of reporting date:

As of December 31, 2021

	Contractual undiscounted collections				Total carrying
Financial assets	Less than 1 year	1 to 5 years	>5 years	Total	value
Cash and cash equivalents	P252,985,970	—	—	P252,985,970	P252,985,970
Accounts receivable	5,388,908	—	—	5,388,908	5,388,908
Financial assets at FVTPL	282,712,197	—	—	282,712,197	282,712,197
Financial assets at FVOCI	147,246,176	—	—	147,246,176	147,246,176
Trust funds	283,868,232	—	—	283,868,232	283,868,232
	P972,201,483	—	—	P972,201,483	P972,201,483

Financial liabilities	Contractual undiscounted payments On demand	Less than 1 year	1 to 5 years	>5 years	Total	Total carrying value
Operating						
Accounts payable and accrued expenses	—	P18,564,055	P698,817	—	P19,262,872	P19,176,487

21. AGREEMENTS AND LEASE COMMITMENTS

Memorandum of Agreement on Corporate Social Responsibility Project

On May 8, 2019, the Foundation and AIM Scientific Research Foundation, Inc. (the "Beneficiary") and Asian Institute of Management (AIM) entered into an agreement wherein the Foundation commit to donate an aggregate amount of US $10 million (the "Funds"), as one of the corporate social responsibility projects determined by the Foundation to celebrate the 100th anniversary of the Aboitiz group. The Funds shall be used exclusively for support of data science professorial chairs of AIM, student loan program for AIM site students and improvement of AIM site and facilities.

The Funds shall be allocated and released as follows:

	Support for professorial chairs	Student loan program	Improvement of site and facilities	Total
May, 2019	US $1,250,000	US $1,000,000	US $250,000	US $2,500,000
April, 2020	625,000	500,000	125,000	1,250,000
April, 2021	625,000	500,000	125,000	1,250,000
April, 2022	625,000	500,000	125,000	1,250,000
April, 2023	625,000	500,000	125,000	1,250,000
April, 2024	625,000	500,000	125,000	1,250,000
April, 2025	625,000	500,000	125,000	1,250,000
	US $5,000,000	US $4,000,000	US $1,000,000	US $10,000,000

Furthermore, the Foundation recognizes AIM's academic freedom, hence, the latter can implement alternative use of the Funds provided AIM seek for prior written consent from the Foundation.

Memorandum of Agreement on Usufruct

On February 13, 2014, The Foundation and AP Renewables Inc. (APRI) entered into an agreement wherein APRI granted by way of usufruct to the Foundation the non-exclusive right to possess and use a portion of a lot leased by APRI from PSALM for the limited purpose of establishing, operating and maintaining the Cleanergy Center, an educational facility. The maintenance of the site and any and all expenses relative to the use and possession of the site and the maintenance and operations thereof shall be for the account of the Foundation without the benefit of reimbursement and indemnification.

Lease

The Foundation entered into a contract of lease for the use of its offices. This non-cancellable lease has a term ten years and is renewable at the option of the Foundation under new terms and conditions.

Set out below are the carrying amounts of the Foundation's right-of-use asset and lease liability and the movements during the year:

Right-of-use asset (Note 7)

	2021	2020
As at January 1	P3,328,872	P4,706,337
Depreciation	(1,377,465)	(1,377,465)
As at December 31	P1,951,407	P3,328,872

Lease liability (Note 10)

	2021	2020
As at January 1	P3,670,059	P4,942,443
Interest	151,858	218,666
Payments	(1,565,602)	(1,491,050)
As at December 31	P2,256,315	P3,670,059

The carrying amounts of the Foundation's right-of-use asset as of December 31, 2021 and 2020 are presented as part of property and equipment. (see Note 7)

Set out below are the amounts recognized in the statements of comprehensive income:

	2021	2020
Depreciation expense of right-of-use asset (Note 7)	P1,377,465	P1,377,465
Rent expense – short-term leases (Note 14)	499,548	602,791
Interest expense on lease liability (Note 14)	151,858	218,666
	P2,028,871	P2,198,922

The Foundation has paid in advance a portion of its lease commitments amounting to P434,803 P469,605 as of December 31, 2021 and 2020, respectively. (see Note 9)

Future minimum rental payable under this non-cancellable operating lease is as follows:

	December 31 2021	December 31 2020
Within one year	P1,643,883	P1,565,602
Beyond one year but not more than 5 years	698,817	2,342,699

22. IMPACT OF COVID–19 PANDEMIC ON THE FINANCIAL STATEMENTS

With the outbreak of the 2019 Novel Corona Virus Acute Respiratory Disease, now known as COVID–19, the Philippine government has been undertaking measures to contain its spread by imposing various levels of community quarantine and different health mandates.

The pandemic did not have a significant impact on the operations of the Foundation except that its projects were temporarily focused on disaster relief caused by the pandemic. It made major donations related to assisting communities affected by the pandemic. The Foundation continues to receive financial support from its benefactors to fund its programs and activities.

23. APPROVAL OF FINANCIAL STATEMENTS

The financial statements of the Foundation as of and for the year ended December 31, 2021 (including the comparatives for the year ended December 31, 2020) were authorized for issue by the Board of Trustees on January 14, 2022.

24. SUPPLEMENTARY TAX INFORMATION

Revenue Regulation No. 15-2010.

The Foundation reported the following tax types:

Withholding taxes.

	Amount
Compensation	P6,366,828
Expanded	1,616,957
	P7,983,785

Payments of other taxes and licenses charged to operations are as follows:

	Amount
Business permits and other fees	P7,623
Documentary stamp tax	3,613
Community tax	500
BIR annual registration fee	500
	P12,236
